Home Committees to Thwart B&N Commuter Train Halt

To combat a threat by the B&N Railroad to cut off daily commuter train service between Gulf Coast and New Orleans, a mass meeting was held Thursday night at Ray High School.

The meeting, attended by more than 100 commuters, city and county officials, merchants and interested property owners on the Coast, named committees to decide ways of halting the L and N proposed train service cut.

Wm. G. Gaudet, Waveland, was named as an acting chairman to plan the meeting.

Gaudet said removal of the commuter train from the Coast is not merely a question of transportation. "It is a question of life of the Gulf Coast," he declared.

Members of the meeting were the action of two committees, to work with the L and N in endeavor to discover means economically operating the commuter train, which the railroads have been losing money.

Another committee was formed to take action if it became necessary to enter a legal fight with the railroad to prevent discontinuance of the train.

Members named to the first committee included: M. Brignac, Col. C. E. Beck, Thomas Shaefer, Maurice Jones, Lawrence Jones, Lawrence Jones and Jack Carrigan.

The second committee is headed by Rudolph Verbeek, Ray, Mr. Roberts, J. Cyril Walker and Col. Walker.

The committees, it was pointed out, were not necessarily from members of the existing Gulf Coast Commuters organization, but rather a community committee of broad citizens which would work with the commuter organization.

An earlier meeting here on commuters and W. G. Gaudet, Assistant to the President of the L and N Railroad, had decided on its course of action if the losses were overcome.

The decision was simply to use the commuter service.
